Personal Profile:

A multi-skilled, talented Software Engineer currently studying at Sheffield Hallam University, Second year. I am looking for opportunities that will open the door to a lifetime career path and provide me with the skills needed to excel in the programming sector. I am currently expanding my knowledge of a multitude of programming languages including Java, C#, and SQL, while hoping to apply this practically into the workplace. I have great interpersonal skills and an astounding work ethic, with a drive to complete tasks to a perfect finish.

Education:

Sheffield Hallam Uni; Software engineering (BEng) (Sep 2019 – Present)

Modules in Progress:-

Object Oriented Programming (OOP using C++), Group Software Development Project, Networked Software Development (Java), Software Engineering Concepts and Methods, Database Systems for Software Applications (SQL), Web App Development (JavaScript).

First year modules:-

(All Successfully completed)

Component Programming (C#), Fundamentals of Computer Programming (C++), Mathematics, Fundamentals of Computer Architecture (Assembly language), Systems Modelling (OOP), Professional Experience and Project Development (HTML+CSS).

New College Pontefract (2013-15)

Grades Received:-

D*DD (BTEC Extended Diploma in IT)

Freeston Academy: (2008-13)

Grades Received:-

6 GCSE's C-A* including English, Maths, and IT.

Work Experience:

CMS Distribution (Warehouse Operative) February 2018 – July 2019

- Operating and maintaining desktop PC's.
- Designing and creating labels specific to customer requirements.
- Picking and shipping orders to required deadlines.
- Liaising with office staff to ensure orders are correctly booked to the correct locations.

Sheridan Fabrications (Worktop Fabricator) September 2016 – January 2018

- Operating High powered cutting machinery.
- Working as a team on a production line and fluently switching job roles.
- Learning new information about which materials work best with others
- Quality checking the finish of a worktop against company regulations to ensure the clients are satisfied with the product provided.

Infinity Promotions (Face-To-Face Sales Representative) August 2015 – May 2016

- Mapping out areas for the team to target while taking into consideration which areas have already been targeted by similar companies.
- Thinking on my feet to ensure the customer is happy while abiding by sales regulations.
- Day by day planning in an ever-changing industry.

Interests:

When I am not focusing on my studies, I am usually out with friends either skating or generally socialising, because I believe this is a great way to build character while still having a good time. I also enjoy playing either new or nostalgic video games to either see the stunning technological advances the industry has made or re-living childhood memories. I particularly enjoy small indie games because I find it interesting to see what can be done with such a small team and a passion for the industry. Aside from this, I also enjoy playing the guitar as it has been a hobby of mine for 5+ years now. This is a good way to keep the brain active while improving dexterity, while also being fun and rewarding when a new technique or song is learned.
